RE: Notice of CR 595 Draft Wetland Mitigation Plan MDEQ File# 1152-0075-P

Dear Jim,

This letter is to advise you that the Michigamme Township Board APPROVED and SUPPORTS the Notice of CR 595 Draft Wetland Mitigation of the State of Michigan Environmental Protection Act for the proposed Marquette County Road Commission 595 project.

Michigamme Township Board understands this mitigation plan proposes to preserve approximately 1,576 acres of land adjacent to the McCormick WILDERNESS in Section 13, 17, and 18 of Michigamme Township in order to compensate for the proposed wetland impacts associated with the proposed construction of CR 595. The preservation of this land would be accomplished through the placement of a Conservation Easement to MDEQ.

This action by the Michigamme Township Board at their September 10th, 2012 meeting. Moved by Howe supported Tembreull. Roll call vote Motion passed unanimously. Five ayes-Howe, Tembreull, Perry, Skytta and Maki.

Sincerely,

Jean Howe, Clerk
